# Our Mission

Data science for  
good  
We provide pro-bono  
data analysis and  
consulting to  
organisations with a  
social mission.

Data science for  
society  
We connect dedicated  
data scientists and  
provide them with a  
platform to apply and  
expand their knowledge.

Data science for  
tomorrow  
We initiate a dialogue on  
the value and benefits of  
data and data analysis  
for civil society.
